

Summary of

Integrity Compliance Guidelines

A. The purpose of the Integrity Compliance Guidelines (ICG) is to provide a framework for the World Bank (WB) to ensure that its operations are conducted in a transparent, accountable, and ethical manner. The ICG is designed to be consistent with the WB's mission and values, and to address the risks of corruption, fraud, and other integrity issues.

B. The ICG is based on the WB's Integrity Framework (IF) and the WB's Code of Ethics (CE). The ICG is a living document that will be updated as needed to reflect changes in the WB's operations and the global environment. The ICG is intended to be used by all WB staff and contractors, and to provide a clear and consistent set of standards for the WB's operations.

B. The ICG is based on the WB's Integrity Framework (IF) and the WB's Code of Ethics (CE). The ICG is a living document that will be updated as needed to reflect changes in the WB's operations and the global environment. The ICG is intended to be used by all WB staff and contractors, and to provide a clear and consistent set of standards for the WB's operations.

2010, the WB has updated its ICG to reflect changes in the WB's operations and the global environment. The updated ICG is designed to be more comprehensive and to provide a clear and consistent set of standards for the WB's operations. The updated ICG is intended to be used by all WB staff and contractors, and to provide a clear and consistent set of standards for the WB's operations.

B. The ICG is based on the WB's Integrity Framework (IF) and the WB's Code of Ethics (CE). The ICG is a living document that will be updated as needed to reflect changes in the WB's operations and the global environment. The ICG is intended to be used by all WB staff and contractors, and to provide a clear and consistent set of standards for the WB's operations.

F. The ICG is based on the WB's Integrity Framework (IF) and the WB's Code of Ethics (CE). The ICG is a living document that will be updated as needed to reflect changes in the WB's operations and the global environment. The ICG is intended to be used by all WB staff and contractors, and to provide a clear and consistent set of standards for the WB's operations.
